

THE CANADIAN DANCE ASSEMBLY'S NATIONAL HEALTH
INSURANCE PROGRAM

Canadian Dance Assembly

L'Assemblée canadienne de la danse

Coming November 1st, 2012 at www.artsandentertainmentplan.ca

Like The Canadian Dance Assembly,

AFBS is a feel-good story of a Canadian organization serving people who are actively contributing to this country's Creative Economy.

Over the past 36 years, AFBS has grown to become one of the country's Top 200 financial firms with more than half a billion dollars worth of its Members' assets hard at work for them and their future. We're proud to say AFBS is entirely owned and governed by creative people.

Because we are “creatives”

ourselves, we understand the unique insurance needs of others who earn their livelihoods in the creative sector. So when AFBS designs and offers programs it does so with years of expertise, knowledge and compassion that can't be matched by traditional insurers for whom insurance is just a business.

Like the Canadian Dance Assembly,

we're a not-for-profit organization. As an independent, very efficiently run organization of just 35 people, through our Arts & Entertainment Plan™ we are able to provide people with access to their particular insurance needs from one source - and at Canada's best rates.

The many services of the Arts & Entertainment Plan™ include affordable extended health care (hospital room, medical supplies, assistive devices, vision care, acupuncture, massage, etcetera), dental, prescription drug, life and accidental death benefits.

We have expanded our offerings to include group home/tenants and studio insurance service which combine the purchasing power of more than 100 thousand members of the Canadian artistic community.

The coverage you apply for as a Canadian Dance Assembly member under the Arts & Entertainment Plan™ umbrella can apply to your family as well.

Simplicity.

Flexibility.

Sustainability.

We are constantly adding

features that match the professional and personal lifestyles of the creative community. For example:

- We will be increasing \$10,000 life dental to \$10,000 Accidental death benefit, with acupuncture and traditional Chinese medicine - from \$35 to \$45 per visit

AFBS is a Canada-wide community of working artists who have pooled their knowledge and resources to financially backstop and inspire the lives and careers of its members in every discipline of the applied arts. In that regard, the Canadian Dance Assembly and AFBS have a lot in common – **creative**

people taking care of their own.
