THE ROAD TO RECOVERY?

actsafe

- Actsafe is not the regulator.

- Information is changing daily.

- We are all in the same boat!

Stay tuned to you local authorities for direction.

actsafe

Working from home:

- ✓ Do your remote workers have access to a first aid kit?

- ✓ Do you know the best phone # to reach them? Many people do not have a land line!

- ✓ Are there any specific hazards? Potential flooding, landslide, wildfire…

- ✓ Are your workers keeping their exits clear? Yes, there is a story hear…☺

- ✓ Can you do a virtual safety walk through? Use a phone camera, have you worker tour you through their workspace.

- ✓ Have you considered ergonomics? Sofa + Laptop = Back issues!

- ✓ Remember, your workers may be working alone! Have a method to do periodic check-ins.

Some hot topics that have come up so far:

- ✓ Audience spacing and movement
- ✓ FOH exposure control plans
- ✓ Washroom use
- ✓ Physical Distancing for performance groups
- ✓ Equipment Sanitation
- ✓ PPE
- ✓ Box office exposure control plans
- ✓ Communicating any of these to clients

Sound Check? Physical distancing?

➢ Schedule: Set-up time with out performers in the room.

➢ Allow one band member at a time to set-up. Leave plenty of time for the drummer (Insert joke hear).

➢ One tech on stage only.

➢ Tape out the stage tech work area (monitor desk?) DO NOT ENTER!

➢ Use wireless tech for monitor set-up.

➢ Musicians strike and leave *BEFORE* the tech strikes the stage!

WWDD?

➢ Run scenarios for your organization

➢ Run scenarios at similar crowd sizes to the shut-down

➢ Ask your workers and clients what they are doing to lower the risk of COVID-19

➢ Review your current safety program for gaps

➢ Contact Actsafe for advice and resources!
